Mr. Edwin R. Tripp, the postmaster at Middlefield Center, N. Y., recently had a sent for two boxes. I used the pills faithfully and they gave me an appetite. I then shattered that it was feared he might never had been cold because to get warm.

"In March, 1892, I was taken with what I afterward learned was locomotor ataxia, and was unable to walk, and I kept getting worse until I lost the use of my arms. I doctored with two skillful doctors but received no benefit, and also used a galvanic battery but kept getting worse and the doctors told me they could do no more. This was in May and June, 1892. I gave up all hope of ever having the use of my limbs again, and did not expect to live very long. I was unable to dress or undress myself, and could not get around the house unless I was moved in a chair.

"I think it was in June that I read of the case of a man in Saratoga Co., N. Y., who was taken very much as myself. He had taken Dr. Williams' Pink Pills for Pale People which contained, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves, and had been cured by their use.

Many a man sits silent and alone in a home of mourning and conjures up before his eyes the face and form of the woman who was once a loving wife and a faithful helpmate. In thousands of such cases the wife might still be alive and well and happy, had the man been not only a good husband, but a wise adviser. Women shrink from the ordeal of consulting a physician. They shudder at the thought of submitting to the obnoxious examinations insisted upon by most physicians.

In the majority of cases they have none of this hesitancy about consulting their husbands.
